For the benefit of the hundreds of men and women who cannot understand the success of "Hyomet" in curing diseases of the air passages and lungs, and its adotton by the medical rofessi on throughout the country, we will ex-

This treatment was founded upon the knowledge that air, and dry air only, can enter the bronchial tubes and lungs; it at once commended itself to all scientific and medical men, who, after a few trials, found in 'Hyomet' a new germicide of sufficlant power to kill at once the bacilli of e starrh, bronchitis and consumption, and at the same time volatile enough to impregnate every particle of air breathed by the patient, yet leaving it free from moisture, thus enabling the cure to reach relis in the lungs. THIS HAD NEVER REPORE REEN ACCOMPLISHED, and the results which followed showed that at last the true treatment for diseases of the respitory organs had been found. This was but a few short monthly ago, yet to-day the R. T. Booth Company can produce fifty testimonials for everyone shown

The reason for this is plain. First, mo isture of any kind cannot enter the bronchief tubes or lungs, consequently the treatments given with sprays, douches, at me facts or vapors do not reach the diseased parts. Secondly, the bacilli of catarrh, hours; hence, treatments, even once a day, cannot prevent their increase; whereas Boath's Inhaler, carried in the pocket, can be used at all times and in any place every abulation carrying death to the germs which cause the disease. removed, the healing of the mucous mem brane begins and continues until a permabent cure is effected, which seldom requires but a few weeks in the most severe

BADWAYS PILLS IN AGONIZING STOMACH TROUBLE, MESSRS. RADWAY & CO.:

MESSRS. RADWAY & CO.:

Dear Sirs.—I know a business man on the east side of town who has for years been alling and suffering agonizing pains in the stomach. The doctors, from Prof. Jacoby down to others by the dozens, could neither effect a cure nor could they even tell what the maindy was. He, a few years ago, crossed the Atlantic to consult German doctors, without result, I used to call at his store every few months and heard his tale of woe. He said while ill he was never able to retain his food and at certain times of day he was attacked with an agonizing pain which lasted an hour or so, when he acted as a madman, breaking chairs, etc., and having to give up business for the time before. Food was attacked with the
